

BD Meeting Minutes for November 27, 2017

- Research Presentation by Cristian Aviles
 - Synthesis and Applications of Polymer Nanocapsules
 - Made from surfactants/lipids, monomers and initiators
 - Methods:
 - Cross-linking monomers with initiators
 - Cationic and anionic surfactants
 - Alternate monomers
 - Dye encapsulation
 - Applications: nanoreactors, nanosensors
 - Presentation of The Importance of SciComm
 - Misinformation in media
 - Social responsibility
 - Outreach
 - Writing (not only Academic writing)
 - Critical thinking
 - McNair class reminder (Virgilio)
 - EEB 5895-44 class reminder (Kevin)
 - Poster presentation workshop and next semester scheduling (Randi)

Attendance:

Kevin Rivera
Cristian Aviles
Virgilio Lopez III
Randy Hamchand
Randi Mendes
Aida Ghiaei

Minutes completed by Kevin Rivera
